Where the Spirit comes to life.

Experience a new way of AMG's EV home charging

Concept

Our concept seamlessly integrates your AMG into your lifestyle, creating a unique bond between you and your vehicle. The 'Spirit' encapsulates your AMG's essence, transforming your garage to match your passions and preferences.

ANG Spirit

At the heart of the system is the dynamic 'Spirit', an interactive entity symbolizing the core of the car coming to life. Serving as the interface between the AMG and its driver, it becomes a personalized and holistic expression of their identity and energy.

Personalized Garage

Transform your garage to match your AMG experience, whether it's a racing-inspired pitstop area or a luxurious retreat. The centerpiece of the garage is the Charging Hub, an inductive charging platform, that brings the core of the spirit into your home.
